

silageMax

dairyMax
CORN ALFALFA

At Can Grow, improving nutrient availability to your livestock is very important to us. Our **DairyMax** line of products are designed to strengthen uptake from your soil bank of nutrients, reduce abiotic and biotic stresses, to produce higher quality or quantity forages; at times, both! We have several different application opportunities and products to help achieve your forage goals. For example:

Multi-year Corn Silage Trials

		Actual tonnes @ 65% moisture		+ or - tonnes/a	ROI/ac for tonnes/a	Milk L/tonnes of Dry Matter			+ or - Milk L/a	ROI/ac for Milk price/L
		Control	Product			Control	Product	Change		
UpStart	2 yr av	18.31	24.20	5.89	\$246.50	1,354	1,341	-13.00	2,681	\$2,010.87
Silage Max	3 yr av	24.79	27.43	2.64	\$110.48	1,288	1,312	24.00	1,421	\$1,065.39
NitroK Mag 15 gal/ac	2 yr av	18.45	22.18	3.73	\$156.10	1,368	1,406	38.00	2,081	\$1,560.69
ROI (Return On Investment) based on Silage price \$41.85/MT (1/26/17 corn \$4.65), Milk price \$0.75/L										

Features:

- ♦ Begin with a strong starter fertilizer program including **Seed Coat** with **CAN**, **UpStart** or **PowerStart**.
- ♦ Apply **SilageMax** as foliar, with or without herbicide.
- ♦ Sidedress with **NitroK Mag** alone, or blended in 28% UAN.

Benefits:

- ♦ Achieve root bursts in young plants and again with each application of **DairyMax** products.
- ♦ Decrease incidence of leaf diseases.
- ♦ Improve use of nutrients by plants.
- ♦ Feed more cows on fewer acres per cow.

Couple the **DairyMax** program with BMR corn to maximize BMR benefits. Increased tonnage and even greater digestibility of BMR corn through improved plant health, vigour and decreased leaf disease.
