

CanGrow ReNew™ is intended to increase nutrient release supporting crop growth and vigor.

Guaranteed Minimum Analysis

Azospirillum brasilense	1 x10 ⁴ CFU/mL
Bacillus amyloliquefaciens	1 x10 ⁷ CFU/mL
Bacillus subtilis	1 x10 ⁷ CFU/mL
Cellulomonas cellasea	1 x10 ⁴ CFU/mL
Pseudomonas fluorescens	1 x10 ⁷ CFU/mL
Pseudomonas putida	1 x10 ⁷ CFU/mL

General Information: CanGrow ReNew™ is a microbial solution containing a diverse team of naturally derived beneficial microorganisms without genetic modifications. Use of the product results in increased nutrient release, and optimization of soil conditions for quicker crop establishment, and greater root mass. CanGrow ReNew™ leverages the power of microorganisms to solubilize and release insoluble forms of phosphate making them available for uptake by the plants.

Storage & Handling: Please store at room temperature or below. Keep product out of direct sunlight. Product has a 12 month (1 year) shelf life. **DO NOT FREEZE.**

Manufactured By: CanGrow Crop Solutions
3971 Old Walnut Rd.,

Mixing Instructions: For best results, shake well before use. If combining with other products avoid having them mixed together for extended periods of time. Some chemicals can be detrimental to the microbes. If mixing with other products, it is best to mix right before application. Always perform a jar test to ensure compatibility.

Direction of Use:

Apply 0.8 - 1.2 L/Ha (330 - 500 mL/acre) of CanGrow ReNew™ for all field crops including: corn, soybeans, wheat, barley, oats, alfalfa, canola, potato, sugar beets, sorghum and all other field crops. It can be applied through planters, sprayers, micro-misters, drip and center pivot irrigation.

For best results apply CanGrow ReNew™ at planting. It can be applied in-furrow, side-dressed or banded on its own or mixed with fertilizers.

CanGrow ReNew™ can also be applied by strip-tilling or banded on its own or mixed with fertilizers.

Net Weight:

Volume: 10.0 L
Weight: 10.0 kg
Density: 1.01 kg/L

CAUTION:

KEEP OUT OF REACH OF CHILDREN.
