

CanGrow ReStore® is intended for use as a seed treatment to optimize crops establishment and vigour.

Guaranteed Minimum Analysis

Azospirillum brasilense	1 x10 ⁴ CFU/mL
Bacillus amyloliquefaciens	1 x10 ⁷ CFU/mL
Bacillus subtilis	1 x10 ⁷ CFU/mL
Cellulomonas cellasea	1 x10 ⁴ CFU/mL
Pseudomonas fluorescens	1 x10 ⁷ CFU/mL
Pseudomonas putida	1 x10 ⁷ CFU/mL

General Information: Use CanGrow ReStore® to support germination and optimize soil conditions for root development. CanGrow ReStore® is a seed treatment solution containing a diverse team of naturally derived beneficial microorganisms without genetic modifications. CanGrow ReStore® will feed and enhance the community of beneficial microbes in the rhizosphere supporting conditions for crop establishment. CanGrow ReStore® harnesses the power of microorganisms to fix nitrogen and solubilize and release insoluble forms of phosphate making them available for uptake by the plants.

Mixing Instructions: For best results, shake well before use. If combining with other products avoid having them mixed together for extended periods of time. Some chemicals can be detrimental to the microbes. If mixing with other products, it is best to mix right before application. Always perform a jar test to ensure compatibility. For more information on mix compatibility with other seed treatment products please contact your CanGrow dealer or a professional crop consultant.

Direction of Use:

Use 200 - 265 mL of CanGrow ReStore® per 100 kg of seed. Will be beneficial for use with any seed that can be treated. Usage rates may vary depending on the other ingredients used to treat the seeds. Please consult your CanGrow dealer for more information on the use of the product.

Storage & Handling: Please store at room temperature or below. Keep product out of direct sunlight. Product has a 12 month (1 year) shelf life. **DO NOT FREEZE.**

CAUTION:

KEEP OUT OF REACH OF CHILDREN.
